

Help Us Grow!

Biosciences in Southeast Louisiana are rapidly expanding and we need **YOU!**

Alumni of the BET program will be proficient in:

- laboratory animal care and use
- chemical safety
- use of radioisotopes
- reagent preparation
- analytical methods
- and many more skills!

Some of the laboratories participating in the BET program include the:

- Genomics Core Facility (LSUHSC)
- Morphology & Imaging Core (LSUHSC)
- Protein Core Facility (TUHSC)
- Gene Therapy Vector Core (LSUHSC)

**Links to core websites can be found at www.sliidr.org.*

Admission Requirements

- Applicants must be a United States citizen or permanent resident
- Received an Associates or Bachelor's degree in a life science (biology, chemistry, medical technology, etc.) from an accredited university or equivalent
- a minimum undergraduate grade point average of 3.00

Application forms & additional information can be found at the SLIIDR website.

For more information, contact Dr. Jeffrey Hobden (jhobde@lsuhsc.edu) or visit the SLIIDR website at www.sliidr.org.

Bioscience Education and Training Program

To meet the demands for a skilled workforce, the South Louisiana Institute for Infectious Disease Research (SLIIDR) is offering a Bioscience Education and Training (BET) program.

Applicants enrolled in the one year BET program will gain hands-on experience in state of the art laboratories and learn the latest techniques in such areas as vaccine development, oral health and infectious diseases.

A stipend of \$15,000 will allow BET participants to devote their full efforts in completing their training. Successful completion of the program will provide access to employment opportunities in this exciting new industry.

**SLIIDR is a partnership of Louisiana State University Health Sciences Center and Tulane University Health Sciences Center in New Orleans, LA*
